

Weather

Weather is important for atmosphere. Give your players a sense of the chilly fog of London and the brilliant sunshine of Khartoum. The referee should apply reasonable weather events whenever they make sense for the narrative. Need a good thunderstorm atop the Empire State Building? Just do it. Fog can roll in to London anytime you need it. For those who want to follow real-world data, the following tables provide historical weather data for the primary locations in *1937: The Abyssinia Affair*. The chance of precipitation data reflect the daily probability for some type of precipitation over the course of 24 hours—not necessarily major rain or snow. It could be as simple as an hour of mist.

Quick Weather (2d6)

2	Unusually cold! -12 HIGH/LOW
3	-8 HIGH/LOW
4	-6 HIGH/LOW
5	-4 HIGH/LOW
6	-2 HIGH/LOW
